

## **Boris Family Fellowships in Stem Cell Hematology McMaster University**

The Faculty of Health Sciences at McMaster University invites applications from trainees who desire a career in academic medicine, with a specific focus on blood stem cells.

We provide a collaborative research environment equipped with new, state-of-the-art infrastructure. McMaster is known as a leading Canadian and international centre for human stem cell research. The Boris family's recent gift of \$30 million, of which \$24 million will create the Boris Family Centre for Human Stem Cell Therapies, will greatly enhance this reputation.

These positions are for up to three years and Boris Family Fellows will gain experience in the application of stem cell biology, specifically as it relates to treatment of blood disorders. Fellows will also have the opportunity to undertake clinical activities. The starting date for appointments is negotiable, but is anticipated to be July 2014. Candidates must have completed subspecialty training in medical oncology or hematology and be eligible for licensure with the College of Physicians and Surgeons of Ontario.

Candidates should submit a detailed statement of interest and curriculum vitae and arrange for 3 letters of reference to be sent by the application deadline. Applications received by March 31, 2014 will be assured of consideration.

All qualified candidates are encouraged to apply; however Canadian and permanent residents will be given priority. McMaster University is strongly committed to employment equity within its community and to recruiting a diverse faculty and staff. The University encourages applications from all qualified candidates, including women, members of visual minorities, aboriginal persons, members of sexual minorities and persons with disabilities. Enquires and applications should be sent via email care of:
