

HEMATOLOGISTS & MEDICAL ONCOLOGISTS – LEUKEMIA

The leukemia program at Princess Margaret is seeking energetic, innovative physicians with expertise in leukemia as Clinical Investigators, Clinician Scientists or Clinical Educators. The largest such program in Canada and among the largest in North America, the leukemia program comprises eight senior physicians and is supported by outstanding Hematopathology, cytogenetics, and molecular diagnostics programs, and by a wide medical and allied-health multidisciplinary team. You will join a multidisciplinary team in managing patients with leukemia (including AML, ALL, MDS, CML and MPNs) in a comprehensive cancer centre setting, and will be expected to engage in clinical, translational or basic research, and to teach at the undergraduate and postgraduate levels. Applicants must be eligible for registration with the College of Physicians and Surgeons of Ontario and hold subspecialty certification in Clinical Hematology or Medical Oncology from the Royal College of Physicians and Surgeons of Canada, or equivalent. A highly attractive remuneration package is available. Research support, and candidacy for a named chair in leukemia research at UHN, will be considered on an individual basis.
