

# HAEMATOLOGY-ONCOLOGY

Health Sciences North | Horizon Santé-Nord (HSN) is recruiting health care professionals who have a keen interest in affecting change within its dynamic health care system. Our network of integrated facilities and programs work together for the benefit of our patients, communities, physicians, researchers, staff and learners in the areas of prevention, diagnosis, treatment and care.

The Northeast Cancer Centre of HSN is a modern, well-equipped facility and includes dedicated in-patient oncology/haematology and palliative care beds. The Centre includes an active Clinical Research Department, which provides ample opportunity for Clinical Trials participation, including performing clinical research in-house. Our acute hospital and tertiary care centre has a total of 454 beds including 17 ORs with state-of-the-art equipment throughout. Our organization consists of 3,900 employees, more than 280 medical staff members and a diverse range of services across multiple core programs. HSN is delivering the highest quality patient care, research, teaching and learning to our region and beyond. As the tertiary care referral centre for the entire Northeastern Ontario region, HSN serves a catchment population of over 600,000 residents.

Visit HSN online at [www.hsnsudbury.ca/physicians](http://www.hsnsudbury.ca/physicians)

<b>Location:</b>	Ramsey Lake Health Centre - acute tertiary care centre
<b>Catchment Area:</b>	Northeastern Ontario
