

Grand River Hospital – Hematology Position

Grand River Hospital in Kitchener Ontario is offering a locum position for 8 to 10 months starting in November 2016 to cover a malignant hematology practice.

Please read the comments provided by Dr. Graczyk below and direct all inquiries to her attention: joanna.graczyk@grhosp.on.ca

"Our malignant practice here has many appealing features: we are a group of 5 haematologists and together a group of 13 and growing oncologists. On call responsibilities reflect that - typically 1 weekend in 2-3 months and 2-3 week nights per month. Our breadth of practice is quite large: we treat aggressive lymphomas, acute leukemia, and will be accepting day 1 auto transplants as of June. Excellent site of high acuity cases along with "the bread and butter". We have an excellent academic relationship with McMaster, have a clinical trials department here and teach medical students and residents."
