

BENIGN HEMATOLOGY AND THROMBOSIS NIAGARA HEALTH

Niagara Health seeks a highly motivated physician with a passion for providing the highest quality care to join the Department of Oncology, Service of Hematology and Thrombosis. Niagara Health has launched a thrombosis service to support our peri-operative program, Heart Investigation Unit, Interventional Radiology, Emergency Department and Oncology program/Walker Family Cancer Centre. This includes both In-Patients consultations and Ambulatory clinics with appropriate nursing support in Niagara Health. The selected candidate will have a proven track record of innovation and for providing exemplary patient care.

Niagara Health is one of the largest multi-site health care systems in Ontario serving 434,000 residents within the Regional Municipality of Niagara. With 700 beds, 4,500 employees, 640 physicians and a \$500M budget, Niagara Health provides a wide range of inpatient and outpatient services across six sites encompassing operations in Fort Erie, Niagara Falls, Niagara-on-the-Lake, Port Colborne, Welland and a new one million square foot state-of-the-art hospital in St. Catharines.

The transformation of healthcare service delivery across Niagara continues with planning underway to build an additional ultramodern hospital in South Niagara Falls to provide accessible and quality healthcare to residents of the Southern Region. Niagara Health is positioned, by virtue of its geography and regionally distributed resources, to exemplify the best of regional capacity with local service delivery. Strong academic partnerships are a priority for Niagara Health as the organization builds on a robust relationship with McMaster University's Michael G. DeGroote School of Medicine.

Current group:	<ul style="list-style-type: none"> • 4 with new recruit
Call:	<ul style="list-style-type: none"> • Benign Hematology and Thrombosis call coverage
The Practice:	<ul style="list-style-type: none"> • Fee for Service
Academic Affiliations:	<p>Since its founding in 1966, innovation has been the hallmark of McMaster University's Michael G. DeGroote School of Medicine and a major contributor to its international reputation for excellence. The medical school has expanded to a regional campus in Niagara, which is located at Brock University. Students at the Niagara Regional Campus complete their clinical rotations in one of the six area hospitals with teaching done by the highly skilled and motivated hospital physicians. Opportunities for strengthening and building strong academic partnerships are a priority for the NHS as the hospital has expanded into this new facility. We are interested in physicians who will pursue a university faculty appointment and participate in academic activities within a strong regional community hospital setting. In addition to McMaster, the Niagara Health System is building strong ties with other regional academic providers such as Brock University and Niagara College.</p>
