of clinical services for a population of 1.8 million people in southern Alberta,

- The section of Hematology also provides comprehensive clinical consultative and inpatient services at Calgary's four adult hospitals.
- An excellent well established Hematology residency training program, and advanced fellowship opportunities in bleeding disorders, lymphoma, myeloma, and bone marrow transplantation
- World class programs of clinical, translational and basic science research
- World class undergraduate, graduate and postgraduate education/training programs
- Opportunities for professional development in clinical, education or research domains
- It is expected that the successful applicant will be appointed to a full-time Clinical Faculty position in the Section of Hematology, Department of Medicine at the University of Calgary and work within the University of Calgary Medical group

Alberta Health Services Calgary Zone operates five teaching hospitals in the city of Calgary, including the new South Health Campus acute care facility. AHS serves 1.8 million residents of Southern Alberta, Southeastern British Columbia and Southwestern Saskatchewan. The Section of Hematology, Department of Medicine provides academic and clinical services in an integrated manner across all of the hospital sites and in several ambulatory care settings. Calgary is a vibrant city (population 1,300,000) situated near the Rocky Mountains, Banff National Park and Lake Louise.

Increasing scholarly capacity will help the University of Calgary meet its strategic goal to become one of Canada's top five research universities by 2016, where innovative teaching and groundbreaking research go hand in hand, and where we fully engage the communities we both serve and lead. The strategy is called Eyes High, inspired by the university's Gaelic motto, which translates as 'I will lift up my eyes.'
