

**FLEXIBLE PART-TIME COMMUNITY HEMATOLOGY OPPORTUNITY**  
**DAYTIME/ EVENINGS/ WEEKENDS**

We are a comprehensive, multidisciplinary, medical facility located in the north end of Toronto at Dufferin and Finch.

We currently have over 60 physicians (16 family physicians and over 50 specialists in a wide array of areas) practicing on a full-time or part-time basis at our facility, including a hematologist working onsite 3 days per week. We have a very high patient volume and potential for out of OHIP income.

Our facility also offers comprehensive on-site diagnostic facilities including but not limited to laboratory, x-ray, ultrasound, bone-density, mammography, endoscopy, full pulmonary function testing, methacholine challenge testing, sleep studies, stress testing, echocardiography, stress- echocardiography, holter monitoring, ambulatory blood pressure monitoring, and audiology testing. We also have an onsite pharmacy, rehabilitation centre, dentist and optometrist.

We are currently looking for another hematologist to join our team. We would also welcome fellows licensed to practice while completing their hematology training. Arrangements are flexible and based on each physician's needs and practice style. This would involve working in a community setting seeing consultations on a part-time basis, such as weekly or bi-weekly (we are open weekday evenings and Saturdays as well).

Please contact Leslie Sole, Legal and Business Affairs Director at 416-786-4754 or at [leslie.sole@phaseonward.com](mailto:leslie.sole@phaseonward.com) for further information.

We look forward to the opportunity to introduce you to Polyclinic Family and Specialty Medicine Facility.
