

**Lecturer or Assistant / Associate / Full Professor –Academic Complex Benign Hematologist and Transfusion Medicine Specialist**

Division of Hematology/Oncology, St. Michael's Hospital,  
Department of Medicine, University of Toronto

**This is a half-time position (0.5 FTE). St. Michael's Hospital is amenable to having the successful candidate hold this position as well as the Canadian Blood Services' position of Physician:**

**<https://career17.sapsf.com/sfcareer/jobreqcareer?jobId=242&company=canadianbl>**

**If interested, candidates must apply to both competitions.**

The Departments of Medicine at St. Michael's Hospital and University of Toronto is seeking a qualified part-time academic benign-complex hematologist. The successful candidate must be eligible for a part-time clinical academic appointment at the rank of Lecturer or Assistant, Associate, or Full Professor at the University of Toronto. The candidate will have an academic position description of Clinician Teacher or Clinician in Quality and Innovation (CQI). The expected start date of the position is September 1, 2021, or shortly thereafter.

This position will support the current in- and out-patient demands in benign-complex hematology in addition to supporting the Hematology-Oncology Clinical Research Group (HOCRG). As well, the candidate will help lead the development of new innovative and stewardship models of care, including patient blood management and apheresis. The candidate will have expertise in complex benign hematology and transfusion medicine, as well as a proven academic record of excellence in quality improvement or education within at least one of these two areas.

The successful candidate will hold an MD degree and should have, or be eligible for, certification in Hematology by the Royal College of Physicians and Surgeons of Canada and licensure with the College of Physicians and Surgeons of Ontario (CPSO). Preferably, the successful candidate will also have or be working towards a graduate degree relevant to their area of specialization. The successful candidate will participate in the educational programs in Hematology at St. Michael's Hospital and the University of Toronto and collaborate in clinical research and quality improvement programs. The successful candidate should be an effective teacher with demonstrated achievement in teaching and education. Teaching accomplishments include the presence of a strong track record of interests and excellence in resident and fellow education, formal training in teaching methodology, leadership as a clinical teacher and other relevant experience. Academic excellence in research will also be considered. Advanced training in quality and evidence of scholarship is the minimum requirement for a quality improvement job description.

The successful candidate will report to the Head, Division of Hematology/Oncology at St. Michael's Hospital. The Division currently consists of 10 full time hematologists and oncologists, has an international reputation in clinical research, education and quality improvement, and busy in- and out-patient services.

Estimated remuneration will be commensurate with academic rank, qualifications and experience.

Applications will be accepted until July 28, 2021. Should you be interested in this opportunity, please forward a one-page statement of interest, a curriculum vitae and the names and contact information of three referees to:

St. Michael's Hospital is part of Unity Health Toronto, the network of Providence, St. Joseph's and St. Michael's Healthcare. St. Michael's is a teaching and research hospital founded by the Sisters of St. Joseph in 1892 to care for the sick and poor of Toronto's inner city. Affectionately known as the Urban Angel, St. Michael's is renowned for providing exceptional patient care. As downtown Toronto's adult trauma centre, the hospital is a hub for neurosurgery, complex cardiac and cardiovascular care, therapeutic endoscopy, minimally invasive surgery and care of the homeless and disadvantaged. St. Michael's is also one of the province's major sites of care for critically ill patients. Fully affiliated with the University of Toronto, St. Michael's provides outstanding medical education to health-care professionals in more than 23 academic disciplines. Home to the Li Ka Shing Knowledge Institute, made up of the Keenan Research Centre and the Li Ka Shing International Healthcare Education Centre, the hospital integrates researchers, educators and clinicians to advance patient care.
